About me

I am Sarthak Kailas Patil, a B.Tech student in Information Technology at Marathwada Mitra Mandal's College of Engineering (MMCOE). As an aspiring web developer with a strong focus on backend development, I am passionate about building efficient, scalable, and secure applications. I thrive on tackling new challenges and continuously expanding my skill set. My goal is to stay at the forefront of technology, learning and implementing innovative solutions that enhance user experiences.

Projects

PrintExpress

A web-based platform for seamless document printing. Users upload files, pay online, and pick up prints from nearby stores. Includes a shopkeeper dashboard for order management. The system ensures quick processing with a priority printing option. Orders are displayed in real-time for shopkeepers, improving efficiency. Designed to save time for students and professionals.

Tech Stack: Django, HTML, JavaScript, CSS, SQL.

EXAMCLOUD

A secure cloud-based exam platform designed for well-structured online test conduction. It offers real-time monitoring, automatic violation detection, and instant scoring to ensure smooth and reliable assessments. The platform is built to serve institutions, banks, and corporate sectors. We are collaborating with Lentra, a company specializing in SaaS solutions for banks, to enhance the platform's reliability and scalability.

Tech Stack: Django, HTML, JavaScript, CSS, SQL.

Plag.AI

An AI-powered bot for hackathons that detects code originality by analyzing GitHub repositories, websites, and documents. It compares solutions to existing projects, identifies similarities, and provides a similarity score. If no repository or website is available, it analyzes documentation to assess originality.

Tech Stack: Django, HTML, JavaScript, React, CSS, SQL
